PROFESSIONAL EXPERIENCE

Web Developer

2023 – Present

Yectra Technologies, Coimbatore, Tamil Nadu, India

- Developed and published 15+ responsive business websites for clients across multiple industries in India and Australia, covering site architecture, page layouts, and design systems.
- Built 20+ custom HTML/CSS/JavaScript widgets, including animated homepages, hero sections, testimonials, stats counters, contact forms, and footers, to extend Duda CMS functionality.
- Managed the full website workflow from create, customize, and update through QA, publish, and maintain, delivering production-ready sites and ongoing production updates.
- Developed a production-ready homepage for a technology company with 13 content sections, animated counters, and scroll-reveal effects using scoped CSS and JavaScript.
- Built a contact form widget with EmailJS integration, a searchable 195-country dropdown, and real-time client-side validation, using namespaced CSS/JS to prevent style conflicts.
- Delivered a complete website for an Australian property maintenance company, including design system, sitemap, wireframes, SEO metadata, and modular CMS widgets.
- Designed landing pages and business layouts aligned with client brand guidelines; resolved global CSS conflicts for a 3D scanning company using scoped, ID-based styling.
- Optimized websites for page speed, Core Web Vitals, and on-page SEO; performed responsive and cross-browser testing and troubleshooting before launch.
- Maintained client websites with content updates, page and layout changes, and first-line technical support; gathered requirements and implemented client feedback and change requests.

SELECTED PROJECTS

- **SRM Institute of Science and Technology, Trichy:** Institutional website with responsive layouts, department pages, performance optimization, and SEO.

- **Texcoms Worldwide:** B2B machinery website with product catalogue, company profile, and a custom EmailJS contact form with international phone and country validation.
- **Creatus Technologies, NSW, Australia:** Landing page and standalone widgets (trust bar, lead-generation form) for a 3D scan-to-CAD and reverse engineering company.
- **Stelios Restaurant:** Restaurant website with dynamic menu showcases and mobile-optimized UI.
- **Maya Indian Catering:** Service website with conversion-focused landing pages, inquiry forms, and on-page SEO.
