- **Tools & Workflow:** Git, QA Testing, Agile Project Delivery
- **Soft Skills:** Client Communication, Requirement Gathering, Cross-Functional Collaboration, Time Management, Coordination

PROFESSIONAL EXPERIENCE

Web Developer — Duda CMS & Platform Developer

Yectra Technologies, Coimbatore, Tamil Nadu, India | 2022 – Present

- Designed and developed 15+ responsive business websites on the Duda CMS platform, establishing site architecture, layout structure, and design systems while consistently delivering projects on time and within scope for clients across multiple industries and regions.
- Built and maintained 20+ custom HTML/CSS/JavaScript widgets to extend Duda's native CMS functionality, including animated homepages, hero sections, testimonials, stats counters, contact forms, and footers.
- Developed a full production-ready homepage widget for a technology company featuring a custom animated design motif, 13 content sections, animated counters, and scroll-reveal effects using scoped CSS/JS architecture.
- Built a custom contact form widget integrated with EmailJS, featuring a searchable 195-country dropdown, real-time client-side validation, and namespaced CSS/JS to prevent style conflicts on the CMS platform.
- Delivered a complete website build for an Australian property maintenance company, including a full design system, sitemap, wireframes, SEO metadata, and modular CMS HTML widgets for hero, stats, services, testimonials, and contact sections.
- Developed landing pages and widgets for a 3D scanning and reverse-engineering company, resolving global CSS conflicts by implementing scoped, ID-based style architecture.
- Built an interactive prototype for an automated daily pricing system using Google Sheets/Airtable as a backend with Zapier automation, presented directly to stakeholders in client meetings.
- Created high-converting landing pages and business layouts aligned with client brand guidelines and conversion goals.
- Optimized websites for page speed, Core Web Vitals compliance, and on-page SEO best practices, improving organic search visibility for clients.
- Performed ongoing website maintenance, content updates, and first-line technical support across all managed client sites, managing the technical aspects of the CMS.

- Collaborated directly with clients across India and Australia to gather requirements, present design options, and iterate through feedback cycles — coordinating timelines and priorities independently and as part of a team.

KEY PROJECTS

- **SRM College, Trichy** — Full institutional website with responsive layouts, department pages, and optimized performance & SEO.
- **Texcoms Textile** — B2B machinery website with product catalogue, company profile, and a custom EmailJS-powered contact form widget with international phone/country validation.
- **Creatus Technologies (NSW, Australia)** — 3D Scan-to-CAD and reverse engineering company: landing page and standalone widgets for trust bar and lead-generation form section.
- **Stelios Restaurant** — Restaurant website with dynamic menu showcases and mobile-optimized UI/UX.
- **Maya Catering** — Service-focused website with conversion-optimized landing pages, inquiry forms, and on-page SEO.

CERTIFICATIONS

- **Duda Developer Certified — Duda**
